This my first year as Chief has certainly been a rewarding one. The support of the Towns people, Businesses, the time and hard work of the Ladies Auxiliary are all greatly appreciated.

To all our dedicated firemen I am truly proud to be your Chief, you have given your full support, which I feel is shown by the strength of our fine Department.

Respectfully submitted,

JOHN E. DRINWATER
Chief, Town of Rutland Fire Dept.

I hope we receive better response to Town Ordinance #13-E.

No person shall build an outside fire, contained in an incinerator or other receptable or enclosure or permit the same to remain burning, except during the hours from 6 a.m. to 11 a.m. Burning shall be prohibited on Sundays. Such incinerators or receptacles shall be properly covered with wire mesh or other device suitable to contain the fire. No material shall be burned that produces noxious odors. Burning at any other time shall require a written permit therefore from the Chief, or a designated representative. The burning of fuels for cooking purposes shall not be construed as being included in the provisions of this Section.

Too much time was spent answering these unnecessary complaints.

Respectfully submitted,

JOHN E. DRINWATER
Chief, Town of Rutland Fire Dept.

ANNUAL REPORT OF SCHOOL DIRECTORS TO RUTLAND TOWN CITIZENS

The Board of School Directors of Rutland Town meet regularly the first Tuesday evening of each month. Many hours are spent at the regular and many special meetings making decisions and determining policies to secure better education for the youth of Rutland Town. Board members attend supervisory union meetings and meetings of the Union 38 District. Individual board members have been active on curriculum, negotiation, career education, staff development and various other committees. The conscientious board member spends endless hours if the job is done well.

The Board is continually aware of the spiralling costs of education and at each meeting evaluates bills for purchasing of equipment and materials to make sure that we are within our budget as approved by the taxpayer. In preparing the budget for the 1973-74 school year, many long hours were spent, evaluating each item as to its relative need in providing the kind of education which the people of Rutland Town want for their students. The two biggest items in our budget; tuition for our secondary students and salaries for the teachers, require the larger portion of the budgeted money. The latter requires us to enter into professional negotiations with our teachers regarding salaries and fringe benefits for them. A committee of three board members and three teachers have had many meetings on this matter. We have good teachers who should receive adequate salaries for their services.

For the current 1972-73 school year we have 526 students in our school, an increase of 55 students over last year and the next year we predict about 570 students for the beginning of the school year—an increase of about 100 students in a two year period. During this time we have not increased our professional staff, but have hired teacher aids who have been most valuable in alleviating the crowded problem. We are anticipating the hiring of two teachers for the 1973-74 to alleviate crowded situations. We also plan to increase the percentages of teaching time for part time teachers because of additional classes. The budgeted amount of $234,767.00 covers the salaries of one full time principal, all full and part time teachers, teachers aids and substitute teachers. This is an increase of $13,267 from last year's amount of $221,500.00.

The education of our youth, in secondary schools, continues to concern us. We anticipated having 137 tuition students for the 1972-73 year at a budgeted amount of $164,400. In fact, currently

we have 147 enrolled in secondary schools at a total cost of $176.100. In the 1973-74 year we anticipate approximately 160 at a total cost of $212,300. This is an increase of $47,900 over the 1972-73 budget. A large amount of money is expended for tuition and yet we have no say in making decisions about the kind of secondary education which we have. The people of Rutland Town should evaluate the vote for a Union High School in April. We feel it is the best solution for our intricate problem of providing the best education for our high school students.

As our projected figures indicate, our enrollments will continue to increase and in the near future our elementary school will have reached maximum capacity. In last year's report we cited the need for purchase of land for a future elementary school. We need to think about this again.

We are spending more in the maintenance of our school plant. A program of preventive maintenance is being carried out. Several rooms are repainted each year and so our school plant is in excellent condition. Furniture and equipment are being repaired and maintained. Periodically, instructional and non-instructional equipment must be replaced. Increased use of the school by community groups—result in increased utility costs. Our lawns and shubbery are in excellent condition.

Center Rutland School is in excellent condition. We have not been able to rent it nor Cheney Hill School, but are continuing to seek suitable tenants for these two buildings. Haiti School is rented to A.F.C. Precision Survey.

Mr. Robert Bell was employed as a part time teacher and Assistant Principal during the current year. Mrs. Bertha Davidson and Mrs. Ruth Pratt retired after many years of distinguished service given to Rutland Town. Mrs. Judy Stiles replaced Mrs. Pratt and Miss Susan Moore replaced Mrs. Davidson. Mrs. Jane Webb was our remedial reading teacher who resigned. The money budgeted for a remedial reading teacher was used in hiring the teacher aids.

This year we were fortunate to have been selected to become part of the Staff Development Consortiam. More help with student teachers and inservice aid to teachers is available through this. Federal Funds are being provided for a Career Education Development Program.

Rutland Town has an enviable reputation in providing an excellent education for its youth. This has been possible because the taxpayers in Rutland Town feel that their young people are their most precious and valuable asset. We know you will continue to support superior education for our young people. The

board is most appreciative for the sincere efforts of Mr. Zani of Superintendent of Schools, Miss Reilly our Principal, Mr. Bell our Assistant Principal, our conscientious teachers, our hard working staff and the citizens of Rutland Town for their sincere support in providing a good education for our young people who are our only hope in leading America toward that peace of mind which we all so desire.

RUTLAND TOWN
REPORT OF THE SUPERINTENDENT OF SCHOOLS

I hereby submit my annual report as Superintendent of Schools to the taxpayers of Rutland Town.

Mrs. Bertha Davidson and Mrs. Ruth Pratt, first grade teachers and Kindergarten teacher respectively, retired after many years of devoted and unselfish service to the youngsters of Rutland Town. Both teachers were dedicated and excellent in their educational fields. The children, parents and their colleagues wish to convey a heartful thanks to Mrs. Davidson and Mrs. Pratt for their inspiring years in education and for being influential in sa many lives. Everyone wishes them happy, healthful and rewarding retirements.

American education in the early seventies is a mixture of idealism and public necessity. The idealism, which has its roots in the founding days of the NATION, is best expressed as a firm belief in the right of all Americans to an equal opportunity for an education. The public necessity for education has long been recognized; a progressive healthy body politic requires an intelligent educated citizenry. An equal opportunity for all is an integral part of the great American Dream. Americans have always felt this to be true and, in large measure, they have supported the Dream with great effort and vast sums of money.

In voting for the formation of Union School #38, you, the taxpayers, were supporting that Dream and in reality you were expressing the following values:

1. the belief that every Rutland Town child, regardless of national origin or the economic condition of his parents, should be given an equal opportunity in the public school system to develop his talents to their fullest extent in order that he may have full access to the benefits of the American social, economic and political system.

2. the belief that by having good education, you contribute to the reduction of poverty, crime and dependence upon programs of public welfare.

The overall goal that the School Board of Directors and the Rutland Town educators are striving for, is to develop citizens who function well in our society. Included in this goal are those who, for whatever reason, choose to leave the formal system of education at any point, — that they will be prepared to enter a job or advanced study successfully. To help us begin in this education, the federal government funded Rutland Town — one of five in the state — for a "career education" program.

Pupils in Kindergarten through the six grades are becoming familiar with career groupings through instructional material and field trips. The teaching approaches have changed somewhat and are complementing courses in basic language, social studies, science and mathematics. In grades seven and eight, pupils are exploring those career clusters that interest them individually. What is hoped to be accomplished is that each child will be prepared for meaningful work or meaningful higher education, lending itself to personal fulfillment.

Today, educators are wrestling with the complex problem of providing a meaningful education for *each* child. This distinction between *all* children and *each* child is not especially clear unless you stop to think about your child. You know him to be a distinct individual and you recognize the many ways he differs from children who are his own age, even those who live in the same neighborhood.

In the Rutland Town Elementary School, teachers are striving for a kind of schooling which permits children to learn at their own pace and in their own way. The instructors recognize individual differences and are exploring every means within their capabilities to reach each child with the very best learning experiences.

It is realized that the individualized type of instruction cannot be accomplished without the support of you citizens. Hopefully, relief for the homeowner taxpayer is within sight during this Legislative Session. The Miller Formula, the formula whereby towns receive state aid to education, may go through revisions or be substituted by another plan. One major problem with the present formula is that the ownership of property is not correlated with either income or wealth, often having little relationship to the ability to pay taxes. This problem exists all over the state of Vermont.

We may hope that the legislators will meet the tax problem forthrightly and will institute equitable taxes for the schools. This will be an important step in keeping faith in the American Dream.

In closing this report, I wish to express my appreciation to the Rutland Town School Board of Directors, the Short and Long Range Committee, the staff members, the town officials and the citizens for their cooperation during the past year.

Respectfully submitted,

RICHARD F. ZANI

UNION SCHOOL DISTRICT #38
DIRECTORS' REPORT

The towns of Chittenden, Mendon, Rutland Town, and Shrewsbury have been working diligently this past year ironing out the final plans for a new secondary and community learning center with a proposed opening date of September, 1974. The school planning has combined community needs and desires into an educational, social, cultural, and recreational format in order to provide the people with a learning environment which is both meaningful and useful, as well as creative and exciting.

A major goal of the School Directors and the architect, Warren Ashley, has been to design the curriculum and building to emphasize human relationships and the importance of individual needs and interests in school and society. Thus, both program and building will incorporate maximum flexibility in order to adapt to the educational changes that are continually taking place.

At present, plans for 1973 include a Public Information Meeting in February to view and discuss the preliminary plans and drawings for Union High School #38; the voting of the bond issue in April; and the hiring of a Principal July 1, 1973 to begin finalization of the curriculum for the proposed opening date of the facility.

The 1973-1974 Union School District #38 Budget (voted in January 16, 1973) and the A.D.M. (average daily membership) breakdown per town are as follows:

VERMONT STATE DEPARTMENT OF HEALTH
ANNUAL TOWN REPORT, F.Y. 1971 - 72

This is report to the residents of your town describing the health services which have been rendered during the state fiscal year July 1, 1971 through June 30, 1972. These services are carefully planned so that maximum benefit may be gained from each tax dollar. For instance, one clinic may serve many towns if the number of patients is small. On the other hand, when a service is needed in a town or city, we make every effort to provide it.

I invite you to discuss this report with your friends and health officer and I would welcome any impressions which you care to forward to me.

The following is a list of some of the health services to the residents of Rutland Town.

Number of Well-child and School Medical Conferences, and Immunization Clinics held in this town	10
Attendance of town residents at above conference/clinics in this or nearby towns	227
Number of children aided under Child Health Programs (Child Development Clinic, Handicapped Children's Clinics, Pediatric Consultation and Diagnosis)	5
Attendance at dental health, brushing, and flossing classes, and dental inspections	344
People X-rayed for tuberculosis detection	17
People X-rayed for occupational diseases	15
People served by tumor diagnostic screening services	—
Attendance at diabetes clinics or physician office screening for diabetes	8
Attendance at glaucoma screening clinics	5
Attendance at amblyopia screening clinics (3-5-yr. olds)	1
Diphtheria, tetanus, Whooping cough immunizations	66
Polio Immunizations	99
Smallpox Immunizations	—
Red Measles (rubeola) Immunizations	12
Rubella (German Measles) Immunizations	54
Number of water samples from supplies serving the public	80
Blood specimens tested (pre-marital, pre-natal, and other)	5
Other laboratory specimens	11
Nutrition and dietary consultations, demonstrations, services	—
Inspections and consultations to hospitals, nursing homes, and homes for the aged	—

Sanitary inspections and consultations to licensed food and lodging establishments and to other public and private facilities	30
Public Health Nurse visits to individuals	75
Number served by above visits	57
Other consultations, program, and group service activities of Public Health Nurses to residents of this town, or held in this town for area residents	36

The Home Health Services program, in addition to providing for the survey of home health agencies as required by Medicare, works cooperatively with the Division of Public Health Nursing, works closely with the Vermont Assembly of Home Health Agencies and the Agency of Human Services in seeking the provision of certified home health care available to all the people of the State.

REPORT ON REGIONAL PLANNING

It is with pleasure that we submit the following brief Report of the Rutland Regional Planning Commission. Almost six years have passed since the Commission was formed in March of 1967 and the year 1972 saw participation by some twenty communities in the Rutland Region.

As a body, the RRPC has addressed many issues of importance to its member communities and provided assistance in the formulation and adoption of municipal plans and by-laws. To date, ten members have adopted plans while eight more are in process or near adoption. Fifteen are operating under locally prepared zoning regulations, having been assisted in their writing and the holding of hearings by the RRPC. Several now have the authority of subdivision regulations to assure construction standards for streets that will protect the community.

The RRPC has continued to encourage training, communications and awareness in the planning field by sponsoring town government training courses, administration and enforcement courses, talking to students, meeting frequently with members, showing slides and movies, writing press releases and articles. Our library of information continues to increase as a handy resource.

The RRPC adopted its Regional Comprehensive Plan which, although having no authority, serves as an important source of information and guide for growth or non-growth. Other typical concerns have been in the area of housing, water and sewer, taxation, problems of the aging, inter-town cooperation, grant sponsorship, environmental laws, economics, solid waste, etc.

Wrapping up the year, the RRPC secured a large grant to plan for services to the elderly and received complete aerial photography of the Region. Copies of the photography have been given to all member communities.

May we take this opportunity to thank the members and others for their support, both financially and of their time. This year, especially, brought a realization that local and regional planning is not easy but is necessary if Rutland Region communities are to retain local decision power. With your continued help, the goals of the RRPC as established by its participants can be met. We invite you to visit your office at 12 Wales Street.

Respectfully submitted,

PERCY B. PHILLIPS,
Chairman

RUSSELL L. MORGAN,
Executive Director

RUTLAND AREA VISITING NURSE ASSOCIATION REPORT FOR 1972

This is a report to your community describing the service rendered by the Rutland Area Visiting Nurses Association for the year 1972. Our primary service is bedside nursing in the home to the acute and chronically ill. We also give family health guidance, physical therapy, speech therapy, instruction in maternal and infant care during pregnancy and after the baby arrives. We also provide Home Health Aide Service.

Our staff is comprised of Registered Nurses, Registered Physical Therapist, Certified Speech Therapists, Licensed Practical Nurses, and Home Health Aides.

We are certified under the Medicare Program, this would mean any of your residents who qualify under the conditions of the Medicare Program now have our service available to them.

Our books do not close until December 31, 1972, so to give you figures on visits, etc., it will have to be estimated.

Nursing Visits	—530
Evaluation Visits	—100

These are estimates based on actual monthly figures through October with estimates for November and December.

We are glad to be able to bring this needed service to you, but to continue a good health program we will need your continued support in 1973.

Respectfully submitted,

EVELYN MORGAN
Director

RUTLAND MENTAL HEALTH SERVICE, INC.
REPORT FOR 1972

Rutland Mental Health Service, offering a wide variety of comprehensive community mental health programs, serves the people of Rutland Town on a 24 hour day, year-round basis.

Our programs include In-patient short term hospitalization at Rutland Hospital for acute situations, Out-patient services to individuals or groups, and Emergency 24 hour service. We also have several children's programs and services for the mentally retarded.

Much of our effort is in indirect services aimed at prevention and control of mental and emotional problems. By emphasizing a positive approach we hope to contribute to the health and well being of all Rutland Town and Rutland County citizens.
